

REDUCE BACTERIA  
WHILE IMPROVING THE  
DINING EXPERIENCE

CALL US TODAY  
I-866-54-ARROW

[www.arrowlinen.com](http://www.arrowlinen.com)

The simplest, yet most effective solution to reducing bacteria during the dining experience is choosing **table linens**. While bare tables may seem clean to the naked eye, they are actually sheltering all types of microscopic bacteria. To ensure the safety of your customers while improving their dining experience, choose **table linens**.

*"A consumer study reveals that diners immediately "upgrade" their perception of a restaurant when they see table linens." - Milliken Table Linens*
